WHY CHOOSE TD STEEL

1 We Deliver Quality

We are committed to providing products and service at the highest level of quality possible. TD Steel follows industry best practice to ensure proper quality assurance and quality control for every project.

2 Customer Focus

Excellence in customer service is one of our key business priorities and we focus on building long lasting relationships with our customers. When you succeed, we succeed.

3 Project Management

We know how important it is to get the job done. Our experienced team of professionals knows how to successfully manage complex projects. We deliver on time and within the agreed budget. Integrity is paramount!

4 Large On Hand Inventory

Here at TD Steel we are proud to house a 750 ton inventory ranging from 16ga to 4". With approximately 150 tons of gauge plate ranging from 16ga to 10ga. We carry all types of grades from MS to Hardox450 and everything in between.

QUALITY EXPERIENCE SERVICE LOCAL

WHAT WE OFFER

CNC Brake Press

12' 250 ton CNC ACCURPRESS ACCELL E with positional accuracies of 0.0004" for high volume and quickest turnaround, 14' 400 ton CNC ACCURPRESS to get the heavy jobs done, 10' 120 ton ACCURPRESS hydraulic press.

CNC High Definition Plasma Cutting

10'x40' XPR300 HYPERTHERM with high speed bevel cutting on mild steel, stainless and aluminum; water injected plasma cutting torch for non-ferrous materials for superior edge quality. 8'x40' HPR400 HYPERTHERM 400Amp Koike Aronson plasma system with optional Oxy-Fuel cutting up to 8" thick plates.

Plate Rolling

8' wide by 3/16" thick plate rolling capabilities. Whether you need one-off custom rolled cylinders or mass production - TD Steel has you covered.

Metal Shearing

16' wide by 3/8" thick capacity hydraulic ACCURSHEAR provides clean edge metal shearing for simple shapes not requiring plasma cutting.

Automated Saw Cutting

Our HYDMECH S-23A automated bandsaw provides accurate cutting including mitering capabilities of material sizes up to 16" x 20". Automated cutting with pipe bundling is the key to cost effective cutting solutions.
